## IT'S ALL ABOUT THE DOG!

At Rootin' Tootin' we are committed to serving only the best. Our criteria? Had to be local, had to be of superior quality and taste, and had to be healthiest. Enter Stryker Farm.

Their natural, humane, and truly progressive approach to raising the heritage breeds is head and shoulders above any other that we have found. In addition to the natural and healthy forage the animals delight in (which results in a superior end product in both flavor and wholesome-ness), their diets are supplemented with only non-GMO feeds.

The result is that the Stryker Farm hot dog is of superior quality and taste, is non-GMO'd, gluten free, and contains no antibiotics, hormones, or nitrites.

Now THAT'S a great dog!
